

## Features

Core thickness (mm)	Total height (mm)	U-value (W/m <sup>2</sup> .K)	R-value (h.ft <sup>2</sup> .°F / BTU)	Weight (kg/m <sup>2</sup> )*
30 mm	65 mm	0.52	10.92	7.10
40 mm	75 mm	0.41	13.74	7.50
60 mm	95 mm	0.29	19.37	8.30

(\*) Based upon an external sheet thickness of 0.5 mm.

## Standard Configuration

Cover width:	1000 mm
C.t.c crowns:	200 mm
Profile height:	35 mm
Minimum roof slope:	4°
Core material:	Polyisocyanurate insulation
Endlap:	Available with or without endlap
Direction of lay:	Available left and right
Coatings:	External: Colorcoat Prisma or HPS200 Ultra Internal: Ammonia resistant foil
Colours:	According to our colour charts
Minimum length:	2500 mm (shorter available on request)
Maximum length:	11938 mm
